# Administrative Law

- **Definition:** All the laws and policies that regulate or control the administrative *organization and operations* of the government through administrative agencies (AAs)
- **Classifications:**
  1. Internal and External Administration
  2. Law that Controls (Charter) and those issued by Administrative Agencies (Rules)
  3. Substantive and Procedural Administrative Law
  4. General and Special Administrative Law
  5. Geographical and Functional Jurisdiction

# Administrative Agencies (AAs)

- An agency which exercises some *significant form or combination* of executive, legislative or judicial powers (“4<sup>th</sup> Branch”) which are *partial* (having some but not all features of legislative or judicial power) (“Quasi”)
- All AAs are Public Offices
- AAs are “Delegates”
- Include boards, commissions, departments, bureaus, offices, authorities, government corporations, government instrumentalities, and local governments
- Rationale: complex, diverse and specialized concerns

# Administrative Agencies (AAs)

# Creation of AAs

- Constitution
- Congress (Special Law-Chartered; GOCCs - economically viable and common good; LGUs – law then plebiscite)
- President (Executive Order; by authority under the Constitution or of law)
- Supreme Court (classifies; confirms; invalidates)
- AAs themselves (Articles of Incorporation and By-Laws; by authority of law; non-chartered)
- Local Governments (Ordinance; by authority of law)

# Creation of AAs

Creating Authority	Enabling Instrument	Examples
Voters	Constitution	Commission on Elections
Congress	Special Law	Social Security System
President	Executive Order	Presidential Anti-Corruption Commission
Administrative Agencies	AIBL	PNOC-Renewables Corporation
Local Governments	Ordinance; AIBL	Cebu Property Ventures Dev't Corp.

# Charter: Enabling Instrument

1. Name
2. Principles
3. Mandate/ Purpose
4. Powers (implied powers – power to appoint carries power to discipline unless law says otherwise; power to fix rates implied from mandate; express grant of power not a condition sine qua non for SEC to impose an accreditation requirement)
5. Duties and Responsibilities
6. Relationships
7. Jurisdiction
8. Structure
9. Budget
10. Dissolution

*10 Differentiators*

# Mandate/ Jurisdiction

- Law can provide exclusions
- AAs must respect statutory exclusions, i.e., IPRA exempts Baguio City from coverage
- GOCC cannot enter into exploration contracts with foreign-owned corporations
- ERC has jurisdiction over the generation and supply sectors even if they are not public utilities so as to guard against abuse or irregular activities
- ERC cannot disallow changes in circumstances for price adjustments to cover costs
- Grant of fiscal autonomy of Philhealth is not absolute and cannot be sole basis for the grant of benefits and allowances

# Mandate/ Jurisdiction

- Application of remedies and options for restructuring must be in furtherance of the original mandate of GSIS (cushion the impact of life's contingencies)
- COA's jurisdiction over final money judgments rendered by the courts pertains only to the execution stage
- Audit powers not extend to imposing administrative penalties
- IAC-Tobacco does not have sole and exclusive jurisdiction over tobacco. All products affecting health like tobacco are covered by FDA's mandate
- Cooks and waiters hired by PAGCOR are not regular employees under Civil Service and thus not covered under CSC jurisdiction

# Characteristics of AAs

1. Size
2. Specialization/  
Functions
3. Territory
4. Responsibility for  
Results
5. Administrative Duties
6. Delegated  
Authorities
7. Accountability
8. Relationships
9. Capitalization/  
Funding (Stocks,  
if any)

# Rules

1. All AAs are POs, not all POs are AAs (e.g. Congress, Courts)
2. All AAs are GAs, All GAs are AAs (under GCG Act)
3. All PCs are AAs, not all AAs are PCs (e.g. Departments, Gl's and Commissions)
4. GOCCs are Corporations, Gl's are not; GOCCs cannot be Gl's (except BSP)
5. GOCCs, not Gl's, must meet twin constitutional test of common good *and* economic viability
6. There are chartered (special law) and non-chartered GOCCs (Corporation Code)
7. All Quasi-Corporations are GOCCs, All GOCCs are Quasi-Corporations; Gl's are not QCs since they are not corporations

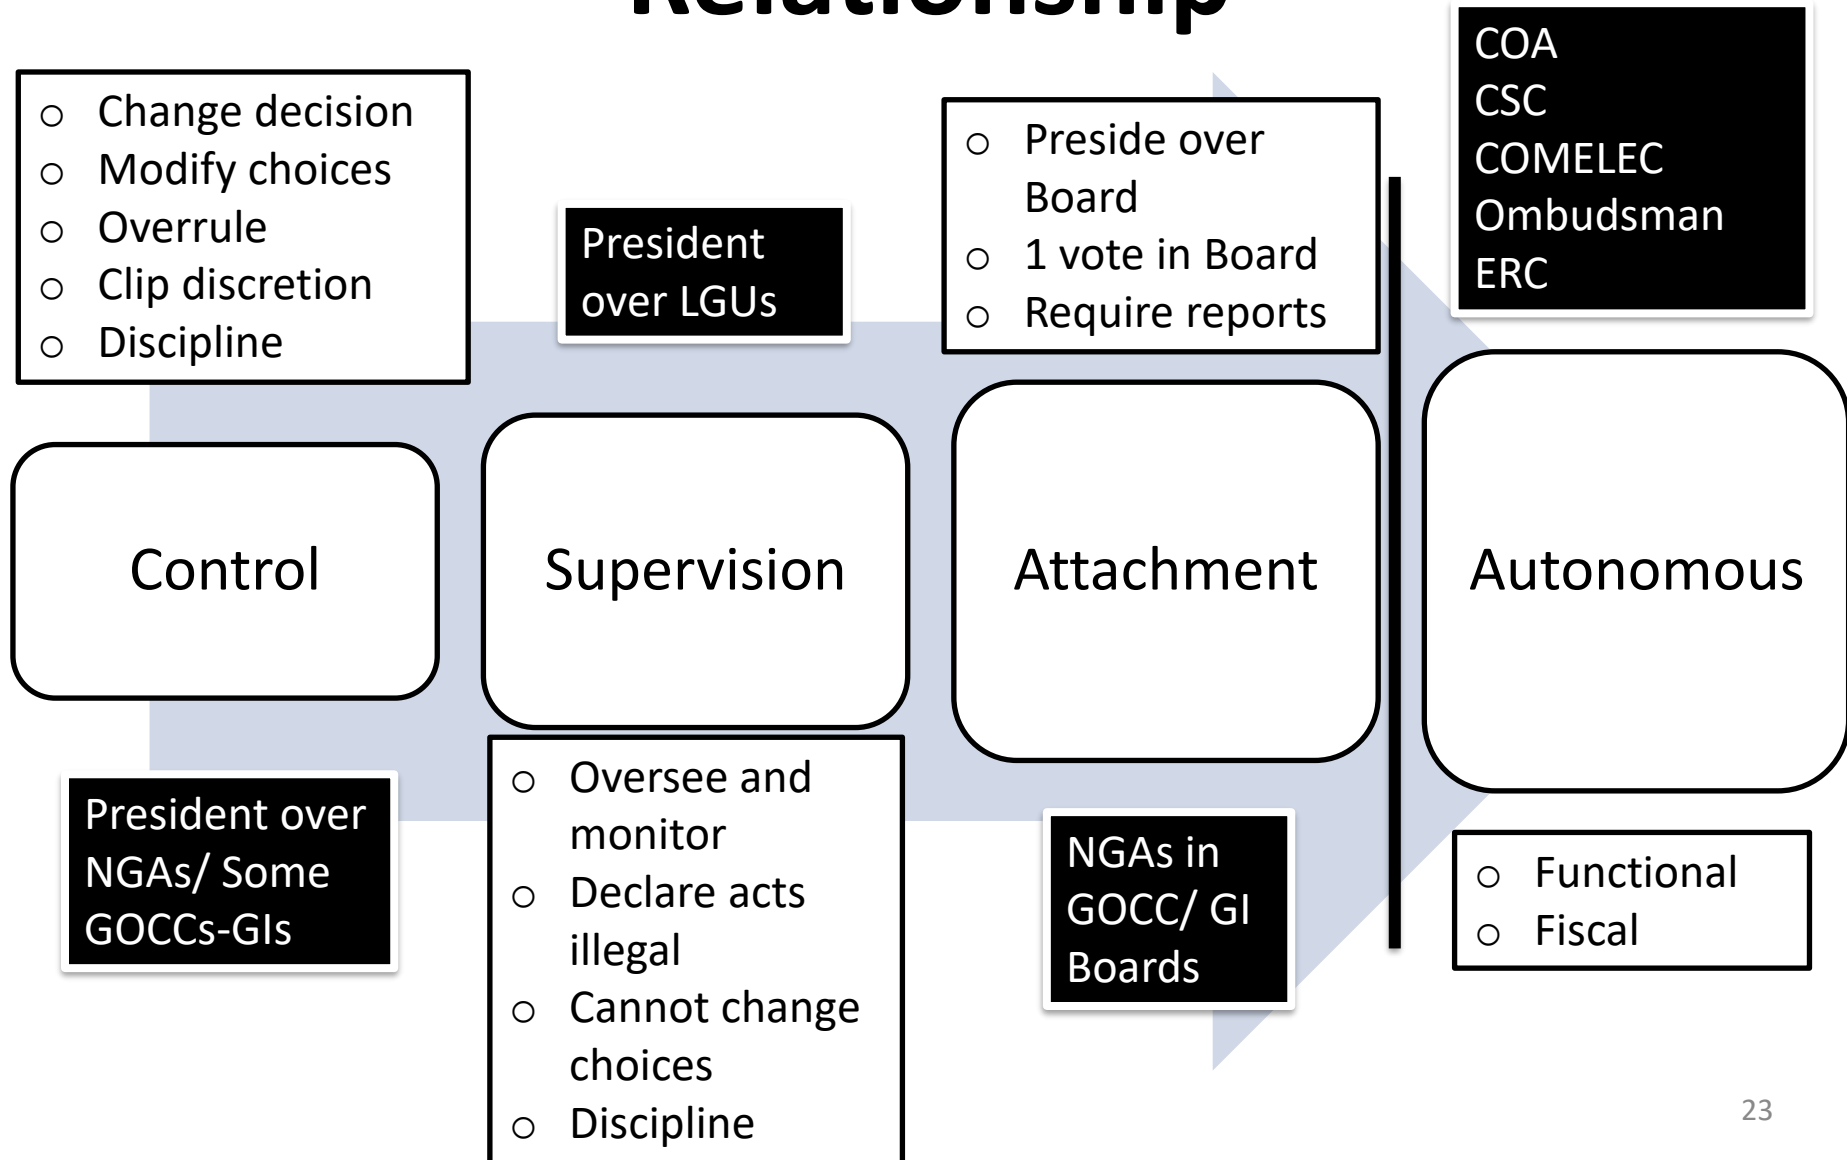

# Why Distinguish?

1. Local taxation (GIs exempt – PFDA, MIAA, PRA, **UP, MWSS** [the tax-exempt status of a government instrumentality is not lost when it grants the beneficial use of its real property to a taxable person; only the exemption of the real property ceases in such case])
2. Legal/ docket fees (GIs exempt – **BCDA**) and **Commissioners' Fees** (Land Bank since performing governmental function related to agrarian reform)
3. COA jurisdiction (subject to COA – BSP, WD, MECO, **Corregidor, PICC, PNCC**)
4. Garnishment (**GI – PPA** exempt from execution/ garnishment)
5. Employment (GOCCs – civil service laws; chartered GOCCs – follow charter)

# Administrative Relationship

- Relationship either attachment, control or supervision (VFP – control and supervision; and BSP, PRA, PEZA – attached; **PNCC – supervision; under DTI; Corregidor - control**)
- Areas: policies, rules, actions, operations, budget, decisions, day-to-day, policy and program coordination
- Types:
  1. Independent/ Autonomous (*e.g. Commission on Elections*)
  2. Control and Supervision (*e.g. President and DOTr, PRA; Mayor over Department Heads; President over DOE in taking over utilities*)
  3. Administrative Supervision (*e.g. Province over Municipality*)
  4. Attachment (*e.g. DENR and LLDA; DOF and SSS; the approval or disapproval of the DBM Secretary, sitting as ex officio officer as required under the law would not have the effect of one member of the board overturning the votes of the majority of the board since it is, by legal fiat, actually the act of the President exercised through his alter ego; Doctrine of qualified political agency does not attach to the acts performed by cabinet secretaries in connection with their position as ex officio members of an AA*)

# Powers

- AAs possess Delegated, *not* Inherent, Powers
- Subordinate, *not* Superior to/ above Enabling Instrument/ Charter, Laws/ Hierarchy of Laws (set boundaries/ limit powers/ define jurisdiction and limitations – under the law, COA audit jurisdiction shall be limited to the 5% franchise tax and the 50% of the gross earnings pertaining to the Government as its share; rule-making power subject to subordinate legislation; **audit powers do not extend to imposing administrative penalties**)
- When there is a conflict, law prevails over rules
- In general, liberal, not strict, interpretation of powers
- AAs (except for LGUs) cannot prohibit what law does not prohibit
- Basic Powers
  1. Investigative
  2. Rule-Making or Quasi-Legislative
  3. Adjudicative or Quasi-Judicial

# Delegation of Powers

- *Potestas delegata non potest delegari*
- Exceptions:
  - President – tariff and emergency
    - President can delegate to SND the power to grant amnesties since alter ego/ doctrine of qualified political agency
  - Local Governments
  - People's Initiative
  - Administrative Agencies

# Twin Test of Valid Delegation

## 1. Completeness *and*

- sets forth therein the policy to be executed, carried out, or implemented by the delegate (*delegate will just enforce*)

## 2. Sufficient Standard

- provides adequate guidelines or limitations in the law to map out the boundaries of the delegate's authority and *prevent the delegation from running riot*
- specifies the limits of the delegate's authority, announces the legislative policy, and identifies the conditions under which it is to be implemented

# Twins Test of Valid Delegation

1. Completeness (the ‘what’, rights; **even if “formulate plan” under Cybercrime Law**; delegation of power of the President to DOE to takeover utilities); *and*
2. Sufficient Standards (may be broad, such as public order, safety, social justice, **quality of education, law and order under definition of “Cybersecurity”**; **genuine local development**; **public interest**; but not vague; not vague when AA has no unbridled discretion; even if term undefined in law, reasonableness is a question of fact that can be determined by the circumstances; efficiency and effectiveness of delivery of metro-wide services; implied from purpose of law since considered as a whole)

# Law vs. Rule

## Law (Congress/ LGUs)

- Why of law (purpose/ policy)?
- Who covered (not covered)?
- What are:
  - Scope? Boundaries?  
Limitations? Exclusions?
  - Classes? Categories?
  - Acts? Rights?
  - Duties? Responsibilities?
  - Obligations? Requirements?
  - Standards? Conditions?
  - Offenses? Penalties?
- When take effect?

## Rule (AAs)

- How implemented?
- What are details?
- When statutory provisions become operative (if parameter/ condition in law)?

# Must be Expressed in Enabling Law

## *General:*

1. “What” law is
2. Relationship
3. Prohibitory Powers
4. Jurisdiction

## *Investigation:*

5. Contempt
6. Subpoena
7. Search and Seizure

## *Quasi-Legislation:*

8. Contingent Rule
9. Penal Rule

Delegated by Law

- Contempt
- Subpoena
- Search & Seizure

# Cease and Desist Orders

Depending on Charter/ law:

- Mandate/ purpose of AA defines object of CDO
- Power can be express or implied
- Can be an incident of administrative or quasi-judicial proceedings
- Can be done *motu proprio*, *ex parte* or after notice and hearing (pre- or post-issuance)
- Observe pre-conditions (e.g. show cause order)
- Subject to administrative reversal and/ or judicial review

# Investigative Powers (IP)

- partakes of judicial discretion, not judicial function
- **Express Grant**
  1. Contempt (can be adjunct of IP, if law provides; not exclusive to courts)
  2. Subpoena (enabling law needed; not implied from IP)
  3. Search and Seizure  
(If not delegated, apply before courts)  
(Presence of counsel not required)
- **Express or Implied**
  1. Clearance
  2. Fact-Finding
  3. Ocular Inspection
  4. Visitorial
  5. Create committee to investigate
  6. Investigate anomalies (CSC)  
Comelec can cite a person for indirect contempt for non-appearance (implied from constitutional power to IP, CHOPFE and enforce laws)

# Rule-Making

- Definition: Power to Issue Rules/ Fill in details/ ‘How’ (not ‘What’) a Law will be implemented; means to provide direct and efficacious solutions to problems
- Nature: Laws are controlling and cannot be amended by a rule; Hierarchy of Laws/ Subordinate Legislation, i.e., Inferior/ must not be inconsistent with the Constitution, Laws and Charter, i.e., cannot change, amend or be in conflict with; interpretations must not override, supplant or modify laws
- Rationale: regulation highly complex, future situations cannot be fully anticipated, practicability, expediency and expertise

# Rule-Making

- 2 **tests** of valid exercise of subordinate legislation
  1. Germane to objects and purposes of law
  2. Regulation not contradict and must conform with law
- An administrative issuance must comply with these 4 **requisites** to be held valid:
  1. Its promulgation must be authorized by the legislature;
  2. It must be promulgated in accordance with the prescribed procedure;
  3. It must be within the scope of the authority given by the legislature; and
  4. It must be reasonable.

# Rules on Rule-Making

1. Executive in nature
2. Rules partake of the nature of a statute
3. Force and effect of law (but are not laws)
4. Procedural rules are to be strictly adhered to in the collection of taxes
5. Germane to the objects of the law
6. By authority of law
7. Issued by proper issuer

# Rules on Rule-Making

8. Interpretations persuasive (deserves cogent consideration); not controlling upon courts (courts must apply the rules if validity of rules not put in issue; findings of BLGF, an agency created to provide consultative services, are not given weight by the courts)
9. Presumed legal, valid and constitutional
10. Notice and hearing not required (*unless (1) law requires, (2) affect vested rights, (3) contractual rights, and (4) affect specific parties (e.g. billing of mobile voice service/ persons and material change)*)
11. Mandatory to issue rules if “shall” used in enabling law

# Rules on Rule-Making

- 12. Pass test of reasonableness (when fixing rates)
- 13. Operative effect
- 14. Must be followed by other AAs; cannot postpone the application (DOE Rules by ERC)
- 15. Rules of an AA may be used as basis for rules of another AA
- 16. Subject to judicial review unless business judgment (RTC can determine if rule contravenes the Constitution or law)
- 17. Subject to repeal and amendment unless vested or contractual rights involved
- 18. Prospective application

# Rule-Making

## *Requisites*

1. Authority: by authority of law (DOJ has no authority to issue a circular on Hold Departure Orders which curtails right to travel absent an enabling law; not fall within inherent power of DOJ to issue rules; BI can issue Summary Deportation Orders subject to conditions)
2. Nature: Executive (not legislative - Congress cannot limit or take over the President's power to adopt IRR for a law it has enacted; if issued by the President, power is self-executory by virtue of its being inherently executive in nature; falls under Faithful Execution Clause)

# Rule-Making

3. Substance: not contrary to law (subordinate legislation)
4. Scope: germane to the objects and purposes of the law
5. Procedure: properly promulgated; publication and hearing, if required by law (Circular/ not Administrative Regulation [internal rule] so not require hearing, publication and consultation)
6. Compliance: franchises may be subject to compliance with NTC rules and regulations

# Rule-Making

7. Issuer: Issued by proper authority for assigned subject matter/ within its jurisdiction (FDA can issue circular based on AO of SoH; IAC-Tobacco can issue rules on the basis of its authority to regulate health aspects of tobacco; CSC cannot issue rules on positions exempt from classification since outside jurisdiction; Career Executive Service Board (CESB) is expressly empowered to promulgate rules, standards and procedures on the selection, classification, compensation and career development of the members of the CES)

# Dos and Don'ts/ Can and Cannot

Dos/ Can	Don'ts/ Cannot
Issue rules to implement laws	Enact/ amend/ repeal laws
Prescribe the “how” and provide details	Define the “who, why, what, when”
Use or apply rules of other AAs	Not follow or postpone the implementation of rules of other AAs

Issue supplementary, interpretative, internal and procedural rule based on express or implied authority	Issue contingent and penal rules absent express authority
Issue internal and interpretative rules without publication	Issue supplementary, contingent, penal and procedural rule without publication

# Rule-Making

Standard: *Reasonableness*

- Relation to purpose; germane to the objects and purposes of the law
- Supported by good reasons
- Not arbitrary
- Free from legal infirmities

# Rule Defined

# Quasi-Judicial Power

- Definition: Deciding controversies, resolving conflicting claims and positions
- Grant of Power:
  - Express (Issuance of HDOs is judicial which DOJ has no authority to wield)
  - Includes those necessary powers (i.e., authority of DAR to conclude proceedings under a law includes coordinate authority to continue its QJ over controversies arising from said proceedings)
  - Clearly defined jurisdiction/ cannot go beyond
    - NCIP: disputes involving rights of ICCs/IPs only when they arise between or among parties belonging to the same ICC/IP group/ intra-IP
    - CIAC: jurisdiction covers transactions within construction industry where parties are in construction industry and does not extend to damages to property of private parties inflicted by a construction company
    - CTA: no jurisdiction over inter-AA disputes
    - PRC: no appellate jurisdiction over decisions of Board for Professional Teachers since law does not prescribe this

# Quasi-Judicial Power

- Jurisdiction: AA must acquire jurisdiction over subject matter to have authority to dispose of case; if no jurisdiction, case should be dismissed
- Extent: Typically, only questions of fact (questions of law or mixed if expressly permitted under the Charter/ law)
- Limitation: Subject to Judicial Review (cannot deprive courts of constitutional mandate)
- Follow plain language of the law (file both administrative and judicial claims within a 2-year period no matter how short the interval)

# Types of Disposition

1. Directing (corrective/ award), e.g., *backwages*
2. Enabling (grant/ permit), e.g., *grant of franchise (not exclusive property of franchisee/ must yield to common good and Congress) or license (purely administrative proceedings; not QJ)*
3. Dispensing (exempt/ relieve), e.g., *amnesty*
4. Summary (compel/ force), e.g., *cease and desist*
5. Equitable

12. Courts accord great respect

# Quasi-Legislative or -Judicial

Quasi-Legislative	Quasi-Judicial
Increasing rates for all public utility buses; Implement fare rates	Application for rate increase by a particular public utility operator

Adopting the procedures for applying for a franchise	Revoking a specific franchise
Issuance of Resolution on Reinvestment Fund for Sustainable Capital Expenditures	Declaring improper the reinvestment
Rules on securities market

# Quasi-Legislative vs. Quasi-Judicial

<i>Subject</i>	<i>Quasi-Judicial</i>	<i>Quasi-Legislative</i>
Grant	E	E or I
Parties	Particular	All/ Sectors
Adversarial	Yes	No
Controversy	Exists	None
Notice and Hearing/ Due Process	Required/ Tax Investigation & Assessment	Not Required (unless 4 situations) (Circular - internal)
Primary/ Exhaustion	Applicable	Not Applicable; judicial review at first instance
Time	Past/ Present	Future
Publication	Not Required	Depends on type
Res Judicata	Applicable	Not Applicable

# QJ Proceedings

- Character: Adversarial, quasi-judicial, civil
- Jurisdiction: Defined by Law/ Charter (not by AA or consent of parties, not acquired through or waived by any act or omission of the parties; DOJ has jurisdiction over all disputes solely [i.e., all without exception] between GOCCs involving questions of law; Philhealth Board, not its President, can revoke existing accreditation)
- Nature: *not* delegable (but power to hear/ receive evidence can be sub-delegated)
- Writ of Certiorari: there must be a specific statutory grant to issue (not by self-conferment of authority and not implied from quasi-judicial/ legislative power)

# QJ Proceedings

- Due Process (DINA): Decision, Impartial Tribunal, Notice and Explain/ Appear/ Defend (anchored on fairness and equity; defenses considered; reasonable opportunity to be heard; observed when affidavits submitted and evidence considered in earlier ruling; due process requires that a decision must be based on completed, not unfinished investigation; party sufficiently informed of reasons for conclusions; no due process when litigant not allowed to avail of all remedies under the rules of the AA)
- Procedure: reasonable, due process, meet ends, published

# QJ Proceedings

- Notice and Hearing
  - Required (actual or constructive)
  - Subject to waiver and estoppel
  - Curable (i.e., **participate in proceedings**, subsequently heard, filing of motion of reconsideration, oral arguments)
  - Position papers allowed (**unless a party invokes or does not waive hearing**)
  - Not required when privilege, abatement, conditional right, legislative or administrative

# QJ Proceedings

- Right to counsel not imperative
- Full Hearing: All Claims, Rebuttal, Evidence and Cross-Examination (dispensable)
- AAs not bound by the technical rules of procedure (but must have some proof of authenticity or reliability as condition for the admission of documents; discretion in granting respondent's Motion for Extension of Time to File Appeal from the Decision)

# Due Process: Notice and Hearing

## Required

- Quasi-Judicial (except motu proprio/ ex parte orders)
- Rule-making if:
  - Law provides
  - Affects a particular party like vested and contractual rights
  - Material change
- Administrative/ Executive Actions if:
  - Notice/ hearing required by law
  - Cannot be issued motu proprio/ ex parte
- Tax investigation and assessment since affect the proprietary rights of specific persons
- MR filed by a particular party

## Not Required

- Rule-making unless:
  - Law requires
  - Material change
- Changes in rules and practices affecting general public, not a particular party with vested and contractual rights
- Motu Proprio/ Ex Parte Administrative and Executive Action

# QJ Proceedings

## ○ Evidence

- Substantial (such relevant as a reasonable mind may accept as adequate to support a conclusion; unless law provides different quantum; need not be overwhelming or preponderant; reasonable ground to believe that respondent is responsible for the misconduct complained of)
- Ocular allowed (when relevant)
- Adoption of reports allowed

# QJ Proceedings

- Decision: Bases, Form (need not be full-blown like court decisions), Parties, All Issues and Evidence; based on defenses raised (AA cannot condone if condonation not raised); party sufficiently informed of reasons for conclusions
- Deliberative Process (arbitral proceedings): excepted, provided predecisional and deliberative, from constitutional right to information
- Enforcement: by AA if authorized by law (if not, courts)

# Judicial Review of Administrative Findings

- In deference to technical expertise (courts cannot determine the type of environmental report which is within the AA knowledge and competence; COA's requirement for prior clearance is an instance of pre-audit which COA can impose)
- AA findings must be accorded great respect (even finality) if supported by substantial evidence or amount of evidence which a reasonable mind might accept as adequate to justify a conclusion; in the absence of substantial showing that such findings were made from an erroneous estimation of the evidence presented; OMB can ascertain whether evidence is strong; unless sharp conflict with law; not conclusive and final before courts and should not be applied in a straightjacket such as when there is grave abuse of discretion; findings of fact by the Office of the Ombudsman are conclusive when supported by substantial evidence unless there is grave abuse of discretion

# Judicial Review of Administrative Findings

- Administrative decisions in matters within the executive jurisdiction can only be set aside on proof of gross abuse of discretion, fraud, or error of law
- Findings on questions of fact of an AA which only provide consultative services and technical assistance to LGUs are not given weight and deference in the courts
- An order, constituting executive or contemporaneous construction of a statute by an administrative agency charged with the task of interpreting and applying the same, is entitled to full respect and should be accorded great weight by the courts, unless such construction is clearly shown to be in sharp conflict with the Constitution, the governing statute, or other laws
- AA business judgments/ policy matters/ purely administrative matters (e.g. increase in SSS premiums) cannot be interfered with by Courts

# Changing Factual Findings

Administrative Findings given weight (since AAs in better position to pass judgment thereon), *not* disturbed unless:

1. Not based on substantial evidence (like bare unsubstantiated circumstances/ allegations) clearly, manifestly, and patently insufficient and insubstantial evidence to support the administrative agency's findings
2. Palpable errors
3. Acted arbitrarily with grave abuse of discretion (clear showing; arbitrary or despotic manner which must be so patent and gross as to amount to an evasion of a positive duty or a virtual refusal to perform the duty enjoined by law; capricious and whimsical exercise of judgment tantamount to lack of jurisdiction; acted without or in excess of jurisdiction - exception to doctrine of immutability)

# Changing Factual Findings

4. Fraud, mistake, collusion
5. Misappreciation or **erroneous estimation** of evidence to compel a contrary conclusion (the reviewing court may delve into the records and examine for itself the questioned findings)
6. Conflict in factual findings (**e.g. among Labor Arbiter, NLRC and CA; contrary to findings of arbitrators**)
7. **Rates fixed are unreasonable**

The exceptions must be alleged, substantiated, and proved by the parties so the Court may evaluate and review the facts of the case.

# Dos and Don'ts/ Can and Cannot

<ul style="list-style-type: none"> <li>○ Resolve controversy based on mandate</li> <li>○ Rule on question of law if authorized by law</li> </ul>	<ul style="list-style-type: none"> <li>○ Expand jurisdiction of AA by agreement of parties or rule by AA</li> <li>○ Not assume jurisdiction under its mandate</li> </ul>

# Judicial vs. Quasi-Judicial

Aspect	Judicial	Quasi-Judicial
Public Office	Courts	AAs
Quantum of Proof	Criminal: Beyond Reasonable Doubt Civil: Preponderance	Substantial
Contempt/ Subpoena	Authorized	If authorized by law
Technical Rules	Follow	Need not strictly follow
Decision	Full-Blown	Full-Blown not required
Cross-Exam	Indispensable	Dispensable
Enforcement	Authorized	If authorized by law
Counsel	Indispensable	Dispensable

# Judicial Review

1. Certiorari
  2. Prohibition
  3. Injunction
  4. Mandamus
  5. Declaratory Relief
  6. Appeal
- Decisions of AA which are declared by law final and unappealable are still subject to judicial review if fail the test of arbitrariness, upon proof of gross abuse of discretion, fraud, error of law
  - Covers grave abuse of discretion of an AA which does not exercise judicial, quasi-judicial or ministerial functions
  - Mandamus not lie to direct the exercise of judgment or discretion in a particular way on mass testing and efficient testing for COVID
  - RTC has jurisdiction over the validity or constitutionality of a rule
  - Certiorari proper to assail an administrative rule
  - Court can reverse AA disallowance of price adjustments based on change in circumstance

# Scenarios

## ***Defenses***

- ***Ripeness:*** No actual injury, filed case in AA or Court
- ***Primary Jurisdiction:*** Instead of filing case before AA, filed directly with Court
- ***Finality of Action:*** While case pending before AA Level 2, filed case in Court
- ***Non-Exhaustion:*** After AA Level 1 decides case, filed case before Court

# Defenses: Judicial Review Premature

1. Doctrine of **Finality of Administrative Action**: Decision of AA must be final before Judicial Review; Exceptions:
  - interlocutory orders
  - protect rights
  - violate Constitution
  - excessive use of power
  
2. Doctrine of **Primary Jurisdiction/ Prior Resort**: AA concurrent with courts; needs administrative discretion and expertise of AA
  - File with DAR Secretary, not courts, cancellation of patents and titles under RA 9700
  - Court may suspend or, if the parties would not be unfairly disadvantaged, dismiss the case without prejudice
  - if 2 AAs have concurrent, where 1<sup>st</sup> filed provided that AA opts to take cognizance, acquires jurisdiction
  - If jurisdictions do not intersect, doctrine does not apply (each AA will rule based on its mandate/ jurisdiction)

# Defenses: Judicial Review Premature

3. Doctrine of **Ripeness for Review**: Controversy must be real, present or imminent (not future/ imaginary/ remote)
4. Doctrine of **Exhaustion of Administrative Remedies**: exhaust all administrative remedies before recourse to courts
  - reassignment – Governor
  - personnel action against PAGC employee with CSC
  - security of tenure of water district employees with LWUA Board to CSC
  - failure of bidding – BAC
  - rate adjustment with ERC
  - reconsideration of DND memorandum
  - DAR Secretary to OP following rules
  - await finalization of bill deposits by ERC
  - mixed questions of law and fact indispensable to resolution of case
  - factual considerations in mass testing and efficient testing
  - validity of tax ordinance with DOJ
  - DOJ when question legality of tax code provisions
  - HLURB to OP since there is prompt relief for injurious effects of judgment
  - remedy available in requesting information from government
  - On public nuisance, elevated to DoT and OP since LGU not act

# Exceptions: Non-Exhaustion

## JPLCS

- Questions essentially Judicial
- Administrative Remedy is Permissive
- Pure question of Law (facts not disputed; local tax; very authority of assessor to impose the assessment; WON failure to implead a party results in case dismissal)
- Constitutionality (impairment; freedom of speech)
- Small amount that exhaustion will be costly

## DRIED

- Utter disregard for Due Process
- No plain speedy Remedy
- Strong public Interest (increase in FMVs in local taxation; non-reimbursement of insurance claims within prescribed time)
- Estoppel
- Continued and unreasonable Delay/ Urgency (impending maturity if bonds; elections nearing; impending 2025 elections on procurement of supplier; unpaid for 8 years)

# Exceptions: Non-Exhaustion

## DARNI

- Irreparable **D**amage by party
- **A**lter Ego Bears approval of President (**d**ecisions of **P**SC and **G**AB approved by **O**P)
- No administrative **R**eview is provided
- Insistence on exhaustion will lead to **N**ullification of claim
- **R**esort to admin. remedy is an **I**dle ceremony

## CLRNT

- **C**ivil action for damages
- **L**and not part of public domain
- Special **R**easons demanding immediate judicial relief
- No **D**ecision rendered
- **T**ranscendental issues
